

# ICHA2027

22ND. INTERNATIONAL CONFERENCE ON HARMFUL ALGAE

**18 – 22 October 2027**

The **International Conference on Harmful Algae**  
will come to Aberdeen, UK in October 2027.

The conference will focus on **Prediction, prevention and exploration into HABs:**  
*safeguarding food production in a changing climate.*

Scotland is surrounded by seas and filled with lochs. Waters shape the coastline & climate, provide energy & food, and stimulate research and exploration. The Organising Team come from across the UK, with expertise in freshwater and marine environments, and they look forward to welcoming you to Scotland in 2027!!
